Posted in group: **sempre contro la guerra**

i primi 8.100 dollari da noi raccolti, insieme ad altri 62.000 raccolti da MAP sono già arrivati a Gaza. ma è una goccia nell'oceano. più possiamo donare meglio sarà. Intendiamo mandare ogni volta che raggiungiamo 5.000 euro, in sequenza, senza aspettare e continuando a raccogliere.

Gaza emergency medicines

The Appeal for the children of Gaza

who worked for two years in support of pediatrics in Gaza, is raising funds and coordinating send medicine to Gaza with UNRWA, WHO, Medical aid for Palestine and Interpal

The situation of the hospitals in Gaza is dramatically severe for the lack of medicines in the emergency under the attacks (more than 700 wounded) and for departments of intensive care, dialysis, cancer and chronic diseases.

The closure of the tunnels a life line also for medicines reduced the inventory and the availability of 30% of the medicines already before the attacks. The economic crisis that followed made it even more difficult to obtain medicines.

Now, doctors are desperate because they cannot deal with emergencies that continue to arrive (see the press, interview with the Director of Medicine, Al Shifa Hospital Dr.S.Skaik, July 10).

Some hospitals have close wdards, in part due to damage caused by the attacks, and emergencies focus on government hospitals without stocks even simply for sutures, antibiotics, analgesics, and for life-saving medicines. Soon the people might concentrate in Gaza city and its largest hospital, if there is a ground invasion.

Data from the state of affairs immediately before the attacks can be found
<http://www.newweapons.org/?q=node/151>

And situation at today, July 10, 2014

http://www.ochaopt.org/documents/ocha_opt_sitrep_10_07_2014.pd

Donators can send support immediately to Maniverso non-profit organization that is part of the support group for the children of Gaza appeal, so that the first help can be sent immediately and in a coordinated manner.

Please continue to support this request because aid in Gaza will be needed for at least some time, even if, as we all hope, the critical phase of attacks will end

There is a banner on the website [www. Maniverso. Org](http://www.Maniverso.Org)

Emergenza medicine GAZA

- Payment on postal account No. 68817899 payable to: Association Maniverso ... non-profit organization;
